- **Soft Skills:** Teamwork, Time Management, Presentation Skills

University Projects

Job Portal

Neemrana, Rajasthan

NIIT University

- Created a web-based application enabling job seekers to apply for positions featured on the platform. The application features a job listing section, search capability, and resume management functionality.
- Integrated user authentication to ensure platform access for authorized users only. Additionally, established a communication channel between employers and job seekers to optimize the interview scheduling process.

Developer Community Platform

Neemrana, Rajasthan

NIIT University

- Created a web-based platform using React and Django that fosters developer collaboration, facilitates work showcasing, and enables idea sharing.
- Developed functionalities that permit users to form and join communities, exchange code snippets and projects, and participate in developer discussions.

Skills

Programming Python, ReactJS, Javascript, NodeJS, Java, Groovy, Django, Spring Boot, SQL, HTML, CSS.

Miscellaneous Linux, Git, Docker, AWS, APIs.

Soft Skills Time Management, Teamwork, Problem-solving.
